1. Applicant's preliminary amendment filed 12/13/04 has been entered. The references crossed through on the IDS of 12/13/04 are non-US references and have not been submitted by applicant.

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-55 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Specifically claim 1 contains the language "basically" and "and so on". These two terms are indefinite because they fail to set for the metes and bounds of the invention.

4. Claims 1-55 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

5. The following is a statement of reasons for the indication of allowable subject matter: the prior art of record fails to teach or fairly suggest to one of ordinary skill in the art at the time of the invention the plurality of inserts with at least one visible face, the means for positioning strings of a plurality of distinctive elements on the visible faces, the strings forming a code to be remembered wherein the Nth distinctive element of each string forms the Nth code to be remembered, and means for varying the relative position between at least two strings from the initial configuration.
